THILINI SAMANTHIKA

Software Engineering & AI Undergraduate

Malabe, Sri Lanka | +94 76 891 8166 | thilinisadtwnika@gmail.com

https://www.linkedin.com/in/thilini-samanthika-7335a634b/ | https://github.com/Thilini-samanthika | https://my-portfolio-tan-seven-91.vercel.app/

PROFILE

Fourth-year BSc (Hons) in Information Technology undergraduate at Horizon Campus (GPA: 2.954/4.00), with hands-on experience in Software Engineering, Full-Stack Development, AI-powered Applications, and DevOps. Skilled in Java, Python, JavaScript, React, Spring Boot, RESTful APIs, Microservices, Docker, Git, and Database Management. Experienced in developing and integrating AI applications, secure backend services, and containerized web solutions. Strong problem-solving, teamwork, and analytical skills. Seeking a Software Engineering or DevOps Internship to contribute to real-world software development projects.

EDUCATION

BSc (Hons) in Information Technology *Nov 2023 – Present*

Horizon Campus, Malabe

Current GPA (First Three Years): 2.954/ 4.00

G.C.E. Advanced Level – Engineering Technology Stream *Jul 2019 – Feb 2022*

R/Sumana Balika Vidyalaya, Ratnapura - Passed

CERTIFICATIONS & COURSES

- Certified Kubernetes Application Developer (CKAD) – Course Completion | KodeKloud | Feb 2025
- Certificate in English Language - Sabaragamuwa University of Sri Lanka, Feb 2022
- English Language Certificate - Sun Vision Academy – June 2026
- Multicloud Network Associate - Aviatrix, Sep 2025
- Foundations: Data, Data, Everywhere - Google, Mar 2026
- Machine Learning I - Columbia+, Aug 2025
- Python for Beginners 1 - University of Moratuwa, Feb 2025

ACADEMIC PROJECTS

AI Software Engineering Assistant | Personal Project

Jul 2026 | Python, Streamlit, LangChain, LangGraph, RAG, ChromaDB, Groq API

- Developed an AI-powered software engineering assistant to support code analysis, debugging, documentation generation, and development workflows.
- Integrated Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), and AI agent workflows to deliver context-aware assistance.
- Implemented document processing, vector embeddings, and semantic search to improve information retrieval and developer productivity.
- https://github.com/Thilini-samanthika/AI-Software-Engineering-Assistant.git

Student Internship Portal | Group Project – DevOps

Feb 2026 | HTML, CSS, JavaScript, Docker, Docker Compose, PostgreSQL, Git

- Collaborated in a three-member team to develop a web-based internship management system for student applications, tracking, and coordination.
- Contributed to containerization and deployment workflows using Docker and Docker Compose to support consistent development environments.

- Supported application configuration, database integration, troubleshooting, and version control using Git.
- https://github.com/Thilini-samanthika/student-internship-portal-devops.git

Movie Recommendation AI | Personal Project

Aug 2026 | Python, FastAPI, Java, Spring Boot, React, MySQL, Docker

- Developed an AI-powered movie recommendation application integrating machine learning, backend services, and a responsive web interface.
- Implemented recommendation functionality using Python and FastAPI, integrating RESTful APIs with a Spring Boot backend.
- Configured Docker-based services and MySQL database connectivity to support application deployment and integration.
- https://github.com/Thilini-samanthika/Movie-recommendation-ai.git

AI Recruitment Platform | Group Project – Microservices

Aug 2026 | Java, Spring Boot, Spring Cloud Gateway, Spring Security, JWT, MongoDB, Redis, Docker

- Contributed to the development of an AI-driven recruitment platform using microservices architecture to support candidate and job management workflows.
- Implemented API Gateway routing, JWT-based authentication, and authorization mechanisms using Spring Security.
- Integrated Redis-based API rate limiting and MongoDB-backed services to support secure communication and scalable backend operations.
- https://github.com/Thilini-samanthika/AI-Recruitment-Platform.git

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, SQL, HTML5, CSS3
- **Frameworks & Libraries:** Spring Boot, React, FastAPI, Streamlit, LangChain, LangGraph
- **AI & Machine Learning:** Generative AI, LLM Integration, Retrieval-Augmented Generation (RAG), AI Agents
- **Databases & Caching:** MySQL, MongoDB, Redis, ChromaDB
- **DevOps & Tools:** Docker, Docker Compose, Git, GitHub, Postman, VS Code
- **Security & Architecture:** RESTful APIs, Microservices, JWT Authentication, API Gateway

SOFT SKILLS

- **Problem Solving**
- **Time Management**
- **Team Collaboration**
- **Analytical Thinking**
- **Adaptability / Quick Learner**

EXTRACURRICULAR ACTIVITIES

- Member of HITS, engaging in technology-related activities and initiatives.
- Member of the Cybersecurity Community, with interest in cybersecurity awareness and knowledge acquisition.
